ACTIONS >

Measure and analyse Use of Energy monthly
Ensure maximum usage of Solar Energy during the day
Sort and recycle cardboard and glass waste
Only use Organic sprays on Vineyard

Sustainability sourced wood for fire places
Water Savings of 60% by using effluent water
Energy savings of 30% with installation of solar panels
Using cleaning products and brands that have minimal impact on the environment
Energy Efficient Lighting - Using low energy lighting across all the whole venue. Use LED bulbs and install sensor based lights at the common hotel areas
Using low water laundry machine and minimise water usage from the swimming pool
Use rainwater for garden or plant watering

Manager to ensure operating procedures respect the current climate and environment

Only purchase and use sustainable products
Grow seasonal vegetables and fruit in Garden to be used within menu options
Food waste into compost
Recycle oil waste

NO use of Single use plastics for F&B - Straws

wine harvest to make Local Le Mas Wine & Gin

Use overripe fruit stock from Garden to create inhouse Dry fruits, jams & relishes

Engaged with Local Suppliers to use fresh produce and local product within Le Mas

Reuse single use items if seals not broken

Offer Eco Friendly amenities

Identify environmental story to guests

Guest can re use linen to reducing water and energy waste . Educate guests to have an option to make small eco friendly choices during their stay

Offering Le Mas eco-bicycles for guests as an alternative transportation option

Educate guests to remain off Vineyards ensuring the Biosecurity of Vines

FUTURE PLANNING >

Install Batteries to store Solar energy during the day for use in evenings
Increase the Solar Output from 19 kw to 35 kw
Pool Filter to be moved to Solar Power - use in Daylight hours only
Organic certification on Vineyard
Improve the way we are monitoring, recording and comparing the use and the cost of energy and water

Train Team members on keeping Eco Sustainability as part of the every day operations

Agreements to be made with suppliers on returnable packaging

All Products are Sustainable and recycled

No single use plastics

Only partner with suppliers that have an accredited sustainability plan

Stop using packaged toiletries. Use Refillable shampoo or shower gel containers which will be much "healthier" for the environment

Continue to educate guests on the need to remain away from Vineyards
